BRIEF SUMMARY

Highly motivated frontend developer with a strong foundation in HTML, CSS, and JavaScript, complemented by hands-on experience in building projects. Proficient in backend technologies such as Python and SQL, enhancing versatility in web development. Dedicated to delivering visually appealing and user-friendly interfaces that optimize user experience. Seeking opportunities to leverage technical skills and creativity to contribute to innovative frontend projects. Committed to continuous learning and growth within the dynamic field of web development. Interested in solving real time problems

KEY EXPERTISE

Python Problem Solving Data Structures Algorithms HTML SQL CSS Java Script Core Java

EDUCATION

Sri Sivasubramaniya Nadar College of Engineering (SSN), Chennai

2021 - 2025

B.Tech. - Information Technology | CGPA: 6.14 / 10

VIVEKANANDA HR SEC SCHOOL, Namakkal

2021

12th | TAMILNADU STATE BOARD | Percentage: 87 / 100**SIVABAKKIAM MUTHUSAMY MATRIC HIGHER SEC SCHOOL, Namakkal**

2019

10th | TNBSE | Percentage: 73 / 100

PROJECTS

Internship

20 Jun, 2024 - 20 Jul, 2024

Team Size: 1

Key Skills: HTML CSS Javascript

Project Link: <https://github.com/Kavin2110701/Job-Board>

I am proud to announce the successful completion of two significant projects during my internship: the Job Board and the Online Quiz Maker. These projects demonstrate my proficiency in web development technologies such as HTML, CSS, and JavaScript. The Job Board is a dynamic platform enabling job seekers to search for jobs by location and category, upload resumes, and access job resources seamlessly. The Online Quiz Maker provides an engaging and interactive experience, allowing users to create and take quizzes with real-time feedback and smooth navigation. These accomplishments underscore my commitment to developing high-quality, functional, and user-friendly web applications.

Automatic Resume Analyser Using AI

20 Sep, 2023 - 30 Nov, 2023

Team Size: 3

Key Skills: HTML CSS NLP AI Project Management Skills NLTK GIT

Project Link: <https://github.com/Kavin2110701/Automatic-Resume-Analyser>

The project aims to develop an AI-based resume analyzer that automatically screens a resume and gives extracted skills, summary, and job description-based resume scores, and parallelly on the admin side it shows the details of all candidates along with visualization.

PARCEL SERVICE OFFICE

14 Jun, 2022 - 26 Aug, 2023

Team Size: 7

Key Skills: Python Data Structures HTML CSS JIRA

Project Link: <https://github.com/Kavin2110701/Parcel-Service-Office>

As the Scrum Master, led an agile team to streamline parcel management, addressing logistics challenges and enhancing customer satisfaction. Transformed parcel operations, significantly improving processing times and overall service quality.

BEST PG ACCOMMODATION SYSTEM

20 Mar, 2023 - 30 Jun, 2023

Team Size: 6

Key Skills: Python HTML CSS Flask XAMPP Github JIRA

Project Link: <https://github.com/Kavin2110701/PG-Accommodation>

As a Frontend Developer, I led the development of a user-friendly web application to simplify the process of finding PG accommodations. By utilizing HTML, CSS, and JavaScript, I crafted an intuitive interface with interactive features. The project successfully addressed the challenges associated with PG accommodation search, enhancing user experience. Collaborating closely with backend developers, I ensured seamless integration of frontend and backend functionalities. The outcome was a streamlined platform that revolutionized the way individuals discover and secure PG accommodations.

ASSESSMENTS / CERTIFICATIONS

Programming in Java

20 Oct, 2023

Key Skills:

Java

Java course offered by NPTEL signifies a comprehensive understanding of Java programming concepts.

EXTRA CURRICULAR ACTIVITIES

- o Cricket
- o Student Clubs
